Airsoft is a tactical military simulation that involves the use of airsoft guns, which are 1:1 simulations of real world weapons. We treat airsoft guns as real weapons since they are visually indistinguishable from real weapons. The public will mobilize the police who will treat such calls as assault rifle situations and react as if a life is in danger. We keep all airsoft guns in sealed containers or gun cases while in transit. We keep all airsoft guns so they are visible only inside our homes.

Adherence to these rules is how the Lower Mainland Airsoft Group (LMAG) keeps the sport of airsoft alive and safe in British Columbia. If I violate LMAG rules and practices, I understand that LMAG may revoke my membership.

My signature on this form below forms my agreement and pledge to uphold LMAG standards.

_____ Signature	_____ Parent Signature (if applicable)
_____ Date (Year-Month-Day)	_____ Date (Year-Month-Day)
_____ Witness Signature
